Contact our Call Center

If you have questions about what is happening in Washington, or how the virus is spread, please call **1-800-525-0127** from 6 a.m. to 10 p.m, seven days a week. Please note that this call center can not access COVID-19 testing results. For testing inquiries or results, please contact your health care provider.

On January 21, 2020, the Centers for Disease Control and Prevention (CDC) and Washington State Department of Health announced the first case of 2019 Novel Coronavirus (COVID-19) in the United States in Washington State.

This guidance does not pertain to Gov. Jay Inslee's Stay Home, Stay Healthy order issued 3/23/2020. Information on that order is available on the [Governor's website](#) .

Learn more about the coronavirus from Washington State's [official COVID-19 website](#) . Maintained by the state [Joint Information Center](#) .

2019 Novel Coronavirus (COVID-19) in Washington

Updated on March 27, 2020 at 3:30 p.m.

The data in this report is reflective of all cases received as of 11:59 PM 3/26/2020. A small percentage of lab reports (<1%) have yet to be reviewed and are currently counted as negatives*.

Confirmed Cases / Deaths by County

County	Positive/Confirmed Cases	Deaths
Adams ↗	5	0
Benton ↗	42	5
Chelan ↗	13	1
Clallam ↗	5	0
Clark ↗	76	6
Columbia ↗	1	0
Cowlitz ↗	7	0
Douglas ↗	5	0
Ferry ↗	1	0
Franklin ↗	12	0
Grant ↗	42	1
Grays Harbor ↗	1	0
Island ↗	79	1
Jefferson ↗	11	0
King ↗	1828	125

Skagit ↗	91	1
Skamania ↗	1	0
Snohomish ↗	913	23
Spokane ↗	86	0
Stevens ↗	3	0
Thurston ↗	27	0
Walla Walla ↗	2	0
Whatcom ↗	92	4
Whitman ↗	5	0
Yakima ↗	72	2
Unassigned	45	
Total	3723	175

Number of Individuals Tested

Result	Number of Individuals Tested	Percent of Tests
Negative	49,015	93%
Positive	3,723	7%

Confirmed Cases / Deaths by Age

Age Group	Percent of Cases	Percent of Deaths
-----------	------------------	-------------------

<19	2%	0%
20-29	10%	0%
30-39	15%	0%
40-49	14%	1%
50-59	18%	6%
60-69	16%	11%
70-79	13%	28%
80+	13%	54%

Confirmed Cases / Deaths by Gender

Sex at Birth	Percent of Cases	Percent of Deaths
Female	51%	52%
Male	46%	47%
Unknown	3%	1%

Note on the county and unassigned data: This data changes rapidly as labs conduct tests and discover new cases. Labs assign those cases to a county. Counties or the Department of Health then determine the appropriate county of jurisdiction. Those don't always match initially. We're working to reduce the "unassigned" number to 0. Contact the local health department for county specific information.

Note on the deaths: Some deaths may be reported by health care providers, medical examiners/coroners, local health departments, or others before they are included in the statewide count. It takes longer for the state to announce deaths because they are often reported first to the local health department and then to us.

Note on the number of infections: Public health experts agree that the true number of people who have been infected with COVID-19 in Washington greatly exceeds the number of COVID-19 infections that have been laboratory-confirmed. It is very difficult to know

exactly how many people in Washington have been infected to date since most people with COVID-19 experience mild illness and the ability to get tested is still not widely available.
